

“Technology is changing; we must seek new ways to reach the generation of today”

- Pastor Tim Woodson

ABOUT

The Life Development Center started in November of 2002. Pastor Tim Woodson and his wife started the church by meeting in their home and grew from there into rented facilities and eventually to buying a renovated school building. Their website aids ministry by offering a tool for people world wide to access the church’s teachings and stay connected through the website.

Well Managed Content

RESULTS

The website has impacted the world both near and far. Through it, this church in Grand Rapids, MI is connected with a church in Nigeria. Also, as a result of the website they have seen the church attendance triple in size in only three months! Their online media was recently used by God to save a man’s life. A middle-aged truck driver was contemplating taking his life. In a hotel room, he opened his laptop and viewed a sermon entitled “God Has Plans for You.” He now attributes his life to that message. Whether it is connecting them to the mission field across the globe or in their own backyard, The Life Development Center’s website has greatly aided this ministry.
