

SERMON FLOW SOCIAL MEDIA SUITE

Take Your Streaming Media Social

Organized like iTunes cover flow, Sermon Flow Social organizes your media by sermon series, allowing your users to flip through all of your media items quickly and easily. Sermon Flow Social has all the customized graphics, hosted on-demand streaming, file embedding from YouTube and Vimeo, and live streaming from UStream and LiveStream of Sermon Flow, but now allows you to share every media file with friends and family via social networks. With people spending **more time on social networks than anywhere else online**, this interactive media tool empowers you and your congregation to reach millions of people where they are.
